WDX treme

Question 1 : Create a webpage using PHP language in which user enters his/her Date of Birth and the system calculates it that the person is above 18 years of age or not. If not then they are prohibited into entering the website, otherwise the user gets entered. The website to enter is Google.com.

Question 2 : Create a single webpage which contains Header, Drop down Menu, Slider, Sidebar and Footer with Responsive Design (Mobile Ready).

For Slider use : Flex Slider
(https://www.woothemes.com/flexslider/)

You can use : https://jsfiddle.net/ and http://phpfiddle.org/ for output purpose or you can can send us .html or .php file.

Judgement will be based on Quality Design.
